

Quality has a Memory

Pressure Filler : **CH441**
Model :

Specifications:

Speed:	By application
Fill Accuracy:	To level
Dimensions:	31" L x 35" W x 60" H (79 L x 89 W x 152 H cm)
Weight:	Net 350 lbs. (130 kilos)
Ship Weight:	400 lbs. approx. (150 kilos)
FOB:	Napa, California

Why this machine will work for you:

All Simplex machines are recognized as a **World Standard** for liquid filling. The Simplex Model CH441 is an **Accurate, Semi-automatic Pressure Filling Machine**. Our **precision engineered system** handles a wide variety of product applications adapted to each customer's specific needs. Designed specifically for filling **chemical products**, the frame is manufactured of polypropylene and the spouts of CPVC or PVC. Air and electric controls are purged with air to fully protect from corrosive atmosphere. MODEL CH441 is an **In-Case Semi-Automatic Pressure Filler** with a **roller or solid top**. The Model CH441 is a unique design, permitting **quick change over** from one container to another. The Model CH441 is very **reliable**, and extremely **dependable**. This **Multi-spout In-case Pressure Filling** machine is **durable, economical, and versatile**, especially with our **Air Logic Control System**.

Components Included:

- Built-in product tank
- Electric spout height adjustment
- Product fill pump
- Safety shield
- Float valve

Optional Equipment:

- Different spout sizes available
- Roller or flat top
